

LEADERSHIP

LEAD AT FULL VOLUME**The 10 Beats to Amplify Your Confidence, Influence, and Presence**

You don't need another leadership strategy. You need to stop leading with the volume turned down.

Too many high-performing leaders know they're capable of more, yet they hesitate in the moments that matter most. They second-guess themselves before speaking up, downplay their accomplishments, and wait to be recognized instead of owning the value they already bring.

The truth is, influence isn't about being louder. It's about being fully expressed.

Drawing from her upcoming book, *Lead at Full Volume*, Mimi Brown introduces The 10 Beats—a powerful framework that helps leaders amplify their confidence, strengthen their executive presence, communicate their value, and lead with greater intention.

Blending music, storytelling, and practical leadership strategies, this high-energy keynote helps audiences stop shrinking, start showing up authentically, and create the kind of influence that changes careers, teams, and organizations.

Key takeaways:

- The 10 Beats framework for amplifying confidence, influence, and executive presence.
- How to stop second-guessing yourself and lead with greater clarity and conviction.
- Practical strategies to communicate your value so others recognize your impact.
- How to strengthen your presence and influence every room you walk into—without changing who you are.

Perfect for audiences who:

- Know they're capable of more but aren't being seen for it.
- Struggle to confidently communicate their value and contributions.
- Want to increase their executive presence and influence.
- Are ready to stop shrinking and start leading with confidence and intention.

Attendees will walk away with:

- Greater confidence in who they are and how they lead.
- A practical framework for increasing their influence and visibility.
- Stronger executive presence in high-stakes conversations and leadership moments.
- The clarity to show up authentically, communicate with conviction, and lead at full volume.
